VOLUME 38, 2000

CONTENTS

Number 1

E. Vakil, S. Kahan, M. Huberman and A. Osimani	1	Motor and non-motor sequence learning in patients with basal ganglia lesions: the case of serial reaction time (SRT)
H. L. Gallagher, F. Happé, N. Brunswick, P. C. Fletcher, U. Frith and C. D. Frith	11	Reading the mind in cartoons and stories: an fMRI study of 'theory of mind' in verbal and nonverbal tasks
M. Harvey, T. D. Pool, M. J. Roberson and B. Olk	22	Effects of visible and invisible cueing procedures on perceptual judgments in young and elderly subjects
B. Forster and M. C. Corballis	32	Interhemispheric transfer of colour and shape information in the presence and absence of the corpus callosum
U. Castiello, K. M. B. Bennett, C. Bonfiglioli and R. F. Peppard	46	The reach-to-grasp movement in Parkinson's disease before and after dopaminergic medication
H. E. Moss and L. K. Tyler	60	A progressive category-specific semantic deficit for non-living things
B. D. Bell, K. G. Davies, B. P. Hermann and G. Walters	83	Confrontation naming after anterior temporal lobectomy is related to age of acquisition of the object names
G. Jewell and M. E. McCourt	93	Pseudoneglect: a review and meta-analysis of performance factors in line bisection tasks
	111	Book reviews

Number 2

R. B. Banati, G. W. Goerres, C. Tjoa, J. P. Aggleton and P. Grasby	115	The functional anatomy of visual-tactile integration in man: a study using positron emission tomography
R. Knott, K. Patterson and J. R. Hodges	125	The role of speech production in auditory-verbal short-term memory: evidence from progressive fluent aphasia
N. L. Graham, K. Patterson and J. R. Hodges	143	The impact of semantic memory impairment on spelling: evidence from semantic dementia
L. Jäncke, M. Peters, M. Himmelbach, T. Nösselt, J. Shah and H. Steinmetz	164	fMRI study of bimanual coordination
A. Schnider	175	Spontaneous confabulations, disorientation, and the processing of 'now'
M. A. Lambon Ralph, K. Sage and J. Roberts	186	Classical anomia: a neuropsychological perspective on speech production
M. K. Rand, G. E. Stelmach and J. R. Bloedel	203	Movement accuracy constraints in Parkinson's disease patients
A. Venneri, M. F. Shanks, R. T. Staff and S. D. Sala	213	Nurturing syndrome: a form of pathological bereavement with delusions in Alzheimer's disease

Number 3

M. A. Evans J. M. Shedden, S. J. Hevenor and M. C. Hahn	225	The effect of variability of unattended information on global and local processing: evidence for lateralization at early stages of processing
S. Vicari, S. Bellucci and G. A. Carlesimo	240	Implicit and explicit memory: a functional dissociation in persons with Down syndrome
R. J. Perry, P. Watson and J. R. Hodges	252	The nature and staging of attention dysfunction in early (minimal and mild) Alzheimer's disease: relationship to episodic and semantic memory impairment
J. Coney and K. D. Evans	272	Hemispheric asymmetries in the resolution of lexical ambiguity
M. Arguin, M. Lassonde, A. Quattrini, M. Del Pesce, N. Foschi and I. Papo	283	Divided visuo-spatial attention systems with total and anterior callosotomy
R. L. Billingsley, M. L. Smith and M. P. McAndrews	292	Material-specific and non-specific attention deficits in children and adolescents following temporal-lobe surgery
K. Amunts, L. Jäncke, H. Mohlberg, H. Steinmetz and K. Zilles	304	Interhemispheric asymmetry of the human motor cortex related to handedness and gender
K. S. Graham, J. S. Simons, K. H. Pratt, K. Patterson and J. R. Hodges	313	Insights from semantic dementia on the relationship between episodic and semantic memory
T. C. Rickard, S. G. Romero, G. Basso, C. Wharton, S. Flitman and J. Grafman	325	The calculating brain: an fMRI study

Number 4

S. L. Langer, J. F. Wilson, L. Creed Pettigrew and L. X. Blonder	337	Channel-consistency following unilateral stroke: an examination of patient communications across verbal and nonverbal domains
G. Denes, J. Y. Cappelletti, T. Zilli, F. D. Porta and A. Gallana	345	A category-specific deficit of spatial representation: the case of autotopagnosia
S. Samuelsson	351	Converging evidence for the role of occipital regions in orthographic processing: a case of developmental surface dyslexia
C. Meltzer and A. J. Parkin	363	Reversed negative priming following frontal lobe lesions
J. Chen, J. Myerson, S. Hale and A. Simon	380	Behavioral evidence for brain-based ability factors in visuospatial information processing
D. T. Stuss, B. Levine, M. P. Alexander, J. Hong, C. Palumbo, L. Hamer, K. J. Murphy and D. Izukawa	388	Wisconsin Card Sorting Test performance in patients with focal frontal and posterior brain damage: effects of lesion location and test structure on separable cognitive processes
W. D. Hopkins and S. Fernández-Carriba	403	The effect of situational factors on hand preferences for feeding in 177 captive chimpanzees (*Pan troglodytes*)
J. S. Holdstock, A. R. Mayes, E. Cezayirli, C. L. Isaac, J. P. Aggleton and N. Roberts	410	A comparison of egocentric and allocentric spatial memory in a patient with selective hippocampal damage
R. N. A. Henson, N. Burgess and C. D. Frith	426	Recoding, storage, rehearsal and grouping in verbal short-term memory: an fMRI study
B. Forster, P. M. Corballis and M. C. Corballis	441	Effect of luminance on successiveness discrimination in the absence of the corpus callosum

J. D. Ragland, A. R. Coleman, R. C. Gur, D. C. Glahn and R. E. Gur — 451 — Sex differences in brain-behavior relationships between verbal episodic memory and resting regional cerebral blood flow

K. E. Waldie and J. L. Mosley — 462 — Developmental trends in right hemispheric participation in reading

J. W. Peirce, A. E. Leigh and K. M. Kendrick — 475 — Configurational coding, familiarity and the right hemisphere advantage for face recognition in sheep

M. Verfaellie, P. Koseff and M. P. Alexander — 484 — Acquisition of novel semantic information in amnesia: effects of lesion location

W. D. Hopkins and L. Marino — 493 — Asymmetries in cerebral width in nonhuman primate brains as revealed by magnetic resonance imaging (MRI)

S. R. Jackson, R. Newport, M. Husain, M. Harvey and J. V. Hindle — 500 — Reaching movements may reveal the distorted topography of spatial representations after neglect

H. Davidson, K. R. Cave and D. Sellner — 508 — Differences in visual attention and task interference between males and females reflect differences in brain laterality

Note
M. E. McCourt and M. Garlinghouse — 520 — Stimulus modulation of pseudoneglect: influence of line geometry

525 — Book reviews

I — Acknowledgement

Number 5

S. L. Schmidt, R. M. Oliveira, T. E. Krahe and C. C. Filguerias — 529 — The effects of hand preference and gender on finger tapping performance asymmetry by the use of an infra-red light measurement device

M. Iacoboni and E. Zaidel — 535 — Crossed–uncrossed difference in simple reaction times to lateralized flashes: between- and within-subjects variability

D. Friedman and C. Trott — 542 — An event-related potential study of encoding in young and older adults

D. J. Serrien and M. Wiesendanger — 558 — Temporal control of a bimanual task in patients with cerebellar dysfunction

A. Cowey and L. M. Vaina — 566 — Blindness to form from motion despite intact static form perception and motion detection

M. P. Laakso, M. Hallikainen, T. Hänninen, K. Partanen and H. Soininen — 579 — Diagnosis of Alzheimer's disease: MRI of the hippocampus vs delayed recall

M. J. Farrell and I. H. Robertson — 585 — The automatic updating of egocentric spatial relationships and its impairment due to right posterior cortical lesions

R. Swainson, R. D. Rogers, B. J. Sahakian, B. A. Summers, C. E. Polkey and T. W. Robbins — 596 — Probabilistic learning and reversal deficits in patients with Parkinson's disease or frontal or temporal lobe lesions: possible adverse effects of dopaminergic medication

Y. D. Van Der Werf, M. P. Witter, H. B. M. Uylings and J. Jolles — 613 — Neuropsychology of infarctions in the thalamus: a review

M. Alegret, P. Vendrell, C. Junqué, F. Valldeoriola, F. A. Nobbe, J. Rumià and E. Tolosa — 628 — Effects of unilateral posteroventral pallidotomy on 'on–off' cognitive fluctuations in Parkinson's disease

S. Vicari, M. C. Caselli and F. Tonucci — 634 — Asynchrony of lexical and morphosyntactic development in children with Down Syndrome

H. Tsuchiya, S. Yamaguchi and S. Kobayashi — 645 — Impaired novelty detection and frontal lobe dysfunction in Parkinson's disease

D. Carlin, J. Bonerba, M. Phipps, G. Alexander, M. Shapiro and J. Grafman — 655 — Planning impairments in frontal lobe dementia and frontal lobe lesion patients

P. A. Gooding, A. R. Mayes and R. Van Euk — 666 — A meta-analysis of indirect memory tests for novel material in organic amnesics

A. C. H. Lee, T. W. Robbins, J. D. Pickard and A. M. Owen — 677 — Asymmetric frontal activation during episodic memory: the effects of stimulus type on encoding and retrieval

P. Vuilleumier — 693 — Faces call for attention: evidence from patients with visual extinction

M. Liotti, M. G. Woldorff, R. Perez III and H. S. Mayberg — 701 — An ERP study of the temporal course of the Stroop color-word interference effect

D. V. M. Bishop, E. Canning, K. Elgar, E. Morris, P. A. Jacobs and D. H. Skuse — 712 — Distinctive patterns of memory function in subgroups of females with Turner syndrome: evidence for imprinted loci on the X-chromosome affecting neurodevelopment

Number 6

A. C. G. Cooper and G. W. Humphreys — 723 — Coding space within but not between objects: evidence from Balint's syndrome

S. Abrahams, P. N. Leigh, A. Harvey, G. N. Vythelingum, D. Grisé and L. H. Goldstein — 734 — Verbal fluency and executive dysfunction in amyotrophic lateral sclerosis (ALS)

C. J. A. Moulin, T. J. Perfect and R. W. Jones — 748 — The effects of repetition on allocation of study time and judgements of learning in Alzheimer's disease

G. P. Crucian, A. M. Barrett, R. L. Schwartz, D. Bowers, W. J. Triggs, W. Friedman and K. M. Heilman — 757 — Cognitive and vestibulo-proprioceptive components of spatial ability in Parkinson's disease

S. D. Sala, V. Gentileschi, C. Gray and H. Spinnler — 768 — Intrusion errors in numerical transcoding by Alzheimer patients

A. M. Barrett, R. L. Schwartz, G. P. Crucian, M. Kim and K. M. Heilman — 778 — Attentional grasp in far extrapersonal space after thalamic infarction

B. Anderson, M. Mennemier and A. Chatterjee — 785 — Variability not ability: another basis for performance decrements in neglect

S. Clarke, A. Bellmann, R. A. Meuli, G. Assal and A. J. Steck — 797 — Auditory agnosia and auditory spatial deficits following left hemispheric lesions: evidence for distinct processing pathways

J. T. Coull, C. D. Frith, C. Büchel and A. C. Nobre — 808 — Orienting attention in time: behavioural and neuroanatomical distinction between exogenous and endogenous shifts

J. Barrash, H. Damasio, R. Adolphs and D. Tranel — 820 — The neuroanatomical correlates of route learning impairment

R. Cousins, J. R. Hanley, A. D. M. Davies, C. J. Turnbull and J. R. Playfer — 837 — Understanding memory for faces in Parkinson's disease: the role of configural processing

P. W. Burgess, E. Veitch, A. DE L. Costello and T. Shallice — 848 — The cognitive and neuroanatomical correlates of multitasking

D. Bächtold, P. Brugger and M. Regard — 864 — Processing of spatial locations: hemispace effects during encoding but not recall

I. Carlsson, P. E. Wendt and J. Risberg — 873 — On the neurobiology of creativity. Differences in frontal activity between high and low creative subjects

P. Van Vugt, I. Fransen, W. Creten and P. Paquier — 886 — Line bisection performances of 650 normal children

Note

L. Bousten and G. W. Humphreys — 896 — Axis-based grouping reduces visual extinction

906 — Book review

Number 7

A. Bisazza, L. Facchin and G. Vallortigara — 907 — Heritability of lateralization in fish: concordance of right–left asymmetry between parents and offspring

P. Rämä, L. Paavilainen, I. Anourova, K. Alho, K. Reinikainen, S. Sipilä and S. Carlson — 913 — Modulation of slow brain potentials by working memory load in spatial and nonspatial auditory tasks

A. Sunderland and S.-M. Sluman — 923 — Ideomotor apraxia, visuomotor control and the explicit representation of posture

J. B. Talcott, P. C. Hansen, E. L. Assoku and J. F. Stein — 935 — Visual motion sensitivity in dyslexia: evidence for temporal and energy integration deficits

A. Caramazza — 944 — Minding the facts: a comment on Thompson-Schill et al.'s "A neural basis for category and modality specificity of semantic knowledge"

J. W.. Philbeck, M. Behrmann, S. E. Black and P. Ebert — 950 — Intact spatial updating during locomotion after right posterior parietal lesions

A. C. Nobre, G. N. Sebestyen and C. Miniussi — 964 — The dynamics of shifting visuospatial attention revealed by event-related potentials

E. Brunfaut, V. Vanoverberghe and G. d'Ydewalle — 975 — Prospective remembering of Korsakoffs and alcoholics as a function of the prospective-memory and on-going tasks

R. J. S. Wise, D. Howard, C. J. Mummery, P. Fletcher, A. Leff, C. Büchel and S. K. Scott — 985 — Noun imageability and the temporal lobes

I. Reinvang, H. Nordby and C. S. Nielsen — 995 — Information processing deficits in head injury assessed with ERPs reflecting early and late processing stages

S. Channon and S. Crawford — 1006 — The effects of anterior lesions on performance on a story comprehension test: left anterior impairment on a theory of mind-type task

J. F. McGowan and T. Duka 1018 Hemispheric lateralisation in a manual–verbal task combination: the role of modality and gender

C. K. Richardson, D. Bowers, R. M. Bauer, K. M. Heilman and C. M. Leonard 1028 Digitizing the moving face during dynamic displays of emotion

M. Laska and M. Tutsch 1040 Laterality of tail resting posture in three species of New World primates

J. P. Keenan, S. Freund, R. H. Hamilton, G. Ganis and A. Pascual-Leone 1047 Hand response differences in a self-face identification task

P. D. Nixon and R. E. Passingham 1054 The cerebellum and cognition: cerebellar lesions impair sequence learning but not conditional visuomotor learning in monkeys

G. Kerkhoff 1073 Multiple perceptual distortions and their modulation in leftsided visual neglect

G. Vallar, R. Daini and G. Antonucci 1087 Processing of illusion of length in spatial hemineglect: a study of line bisection
